The donation box in the church was broken into sometime between 4th and 20th November. It would appear that the thieves used bolt cutters to cut open the lock on the lid. It is unknown how much money was in there as it had not been emptied for about a year.

An isolated house outside the village was burgled between 8.30am and 6pm on Monday 26th November while the occupant was at work, and several items were stolen including wine and champagne, a DVD player, a laptop and a quantity of jewellery. Suspicious incident

At about 11.15 am on Friday 23rd November, a motorist was travelling along the **B4352** towards Hereford near **Bredwardine** when a car coming from the opposite direction flagged him down. He wound his window down expecting to be told about a hazard up ahead, but the driver of the other car asked if he was English, and then went on to explain he had come out for the day and realised he had no money with him. He tried to give the bemused motorist a ring and a card, and asked for £10 in exchange so he could buy some petrol. His offer was refused and the motorist drove away. There were two other people in the car, including a woman. The driver spoke in broken English, he may have been Eastern European, and the car was possibly an Audi.

Incident ref 108-n-231112

A very similar incident happened the following day on the same road, but between **Madley** and **Clehonger**. One of our readers was driving along when he was flagged down by a male in the road. The male asked our reader if he could borrow some money and started taking his jewellery off. He said he was German, although he looked and sounded eastern European, and that he had just arrived in the country and his credit cards had been blocked! Our reader told him he didn't have any money on him, so the male asked to borrow his credit card! This was also declined, and our reader drove away. He was aware of a vehicle parked up by the side of the road with one other person in it.

If anyone else is approached with a similar story, if possible can you get details of any vehicle?
This scam has been going on for some time but not in this area as far as we know.

Operation Tornado - Update

Last Thursday 22nd November several agencies including Customs & Excise, DVLA, VOSA and members of the Community Protection Team joined police at Pontrilas on the A465 in an operation to check vehicles for various offences. Despite the weather, it was quite a successful day (depending how you view it!). The outcomes were as follows -

36 vehicles stopped,

1 vehicle seized for driver having no driving licence,

1 on red diesel(paid fine of £530),

18 offences dealt with by VOSA for vehicle and trailer offences (7 immediate prohibitions, which meant that the vehicles had to be repaired or recovered from the check site).

2 endorsable fixed penalties issued by Police and one reported for no MOT.

6 drivers given warnings for minor defects, one for waste carriage offences(not metal related).

One recurring theme of these checks is the use of large double axle trailers without the driver having passed the right test or having a tachograph fitted if it is used commercially away from its base(50kms).

Tyre and lights offences are still prevalent.

Further checks will be made with DWP and local Benefits offices.

I noticed that the Customs and Excise Officers were dipping vehicles for red diesel at Locks garage last Sunday afternoon (yes, on a Sunday!) I gather three drivers were fined on the spot for having red diesel - the fines are usually in excess of £500, and one vehicle was seized because the driver was unable to pay the fine.

Best wishes
